

Honorable Commissioners:

I am writing to express my very strong opposition to the transfer of XO Communication, Inc. Company Holding Licenses from Mr. Craig McCaw to Forstmann Little & Co. Equity Partnership VII and Telefonos de Mexico S.A. de C.V. Forstmann Little & Co. have initiated a very hostile insider take-over/leveraged buy-out of XO communications. This hostile take-over has many legal and financial ramifications since Forstmann Little & Co. are proposing to render worthless the common stock value of all current shareholders. As a common shareholder of XO Communication, Inc. and as an American Citizen, I request that my government (The FCC) help protect my interests by putting the brakes on this shady deal. In light of the current Enron and Global Crossing debacles, we need more governmental oversight and you, Honorable Commissioners, are in a unique position to provide such oversight. Please deny transfer of the above referenced licenses until all issues involving this sleazy hostile take-over are resolved. Investor confidence in our stock markets has been shaken enough in the last year.

Thank you for your time,
Elizabeth Truesdale-Witek
